Official Host-Host Protocol Modification : Assigned Link Numbers

I. Links 192, 193, 194 and 195 (decimal) are assigned for use by the Message Switching Protocol (MSP) experiment.

II. Links 159 through 190 (decimal) are assigned for network measurement purposes. These links are to be used only under the direction of the Network Measurement Center (NMC). Contact Vint Cerf, (213) 825-2368 for additional information.

III. On page 28 of NIC 8246 the link assignment table should read:

Link Number	Assignment
0	Control link
2-71	Available for connections
1, 72-158	Reserved--not for current use
159-191	To be used only for measurement work under the direction of the Network Measurement Center at UCLA
192-195	To be used for the Message Switching Protocol experiment
196-255	Available for private experimental use
